

J. I. CASE'S SON SHOT BROTHER

Quarrel of Grandsons of Famous Trotting Horse Owner Likely to Result Fatally for Jerome.

IS RESULT OF LADS' PLAY.

One Who Used the Pistol Then Disappeared, but Searching Party Found Him Hidden in the Barn.

RACINE, Wis., June 25.—Roy Case, thirteen years old, son of the late Jackson I. Case, the millionaire threshing machine manufacturer, yesterday shot his brother Jerome, fifteen years old, in the leg. It is feared Jerome will die from blood poisoning.

Roy Case disappeared. Searching parties were formed, and it was at first believed that he had committed suicide by leaping into the lake. Neighbors of the Case family called their partridges and searched all the roads entering the town. Two playmates of the boy found him hidden among piles on the beach with a pistol in his hand and his leg bleeding.

Two brothers are grandsons of the late Jerome I. Case, founder of the Case Threshing Machine Company, who was for years the owner of the fastest trotting horses in the country, among the number being Phalaris and Jay Eye See. The boys often quarreled. Yesterday they were playing with companions of their own age, when a dispute arose over setting the air out of a bicycle tire and a catcher's glove. Roy challenged his brother to fight, but the latter refused. This made Roy more angry, and pulling a pistol from his pocket, he fired two shots. The first went wild, but the second struck Jerome in the calf of the leg. State's Attorney Reed says he will cause Roy's arrest.

Succeeds Dean in Seaboard Bank. At a meeting of the board of directors of the Seaboard National Bank, held today, C. C. Thompson, cashier of the bank, was elected a director, and John E. Davis, for many years loan and discount clerk, was elected an assistant cashier. Dr. Thompson succeeds the late Frank Dean.

AMERICAN BOY IN AIRSHIP RIDE

Clarkson Potter, Pluckiest of Crowd of Little Ones in Paris, Is Favored by Santos-Dumont.

THEN FLIES OVER THE CITY.

Afterward French Youths Want to Ride and Two of Them Are Taken on Aerial Ascension, Santos-Dumont Having No Trouble.

PARIS, June 25.—Clarkson Potter, an American boy, ten years old, has had a ride over Paris with Santos-Dumont in his airship, and is the first boy to attain that distinction.

A thousand children were at play on the lawns of the Polo Club during a fête when a great black object separated them from the sun, depending slowly and gracefully until it landed among them. It was the air navigator's ship.

Santos-Dumont offered to take some of the children on a ride over the housetops and into the clouds, but the mothers were frightened and would not listen to the invitation.

Among the children was Clarkson Potter, an American boy, and he begged so hard for the privilege that his mother finally, although with many misgivings, consented. Santos-Dumont took the boy in the basket of the airship, moved the levers and the great machine started skyward moving off on a gradual slant like a great bird, only without wings.

When he returned to the polo grounds the machine came down gently and struck the lawn with perfect control. Then the other children and their parents had gained courage by the American boy's precedent, and they, too, were anxious to make the trip. The inventor took two of them on his next trip and they, too, saw Paris from the clouds. When they were returned all of the children wanted to go with the nav-

igator of the air, but the inventor said he had to hurry on to another point over the top of the city and would take no others.

Son of New York Woman.
The little boy whom Santos-Dumont first took over the city is believed to be the son of Mr. and Mrs. Clarkson Potter, formerly of New York. Mrs. Potter was the daughter of Henry V. Allen, of New York, and they were married in London in October, 1883.
Mr. Potter, who was a member of the Knickerbocker and other exclusive clubs, was horsewhipped on Fifth avenue the winter before his wedding by Landley Hoffman Chapin, a member of the Calumet Club. Both men were of independent fortune and were engaged in no business. They had been to a reception given by Eugene Kelly, Jr., in his Washington Square home and both drove away in the same cab. They carried and Potter struck Chapin and jumped from the cab. Chapin later accused Potter of telling scandalous stories about him in the Knickerbocker Club, and when Potter would not apologize he horsewhipped him.

KNOCKED FROM HIS CAR.

Wagon Strikes Trolley Conductor and Severely Injures Him.
James Rose, a conductor of the Union Railroad, was severely injured today by being knocked from his car. Rose was standing on the footboard collecting fares when he was struck by a brewery wagon. The injured man was removed to Fordham Hospital. The accident occurred on the White Plains road, near Summer avenue.

NEW YORK PAINLESS DENTAL CO. \$3

TEETH EXTRACTED WITHOUT PAIN, ALSO ONE FILLING FREE. TO DEMONSTRATE OUR PAINLESS METHODS and introduce our Thermo Plate, lightest and most durable plate made. Our work is done painlessly by a simple application to the gums. We are the originators of painless dentistry. Our processes are patented. Our prices are within the reach of all. SKYSCRAPER ON MASONIC SITE

Twenty-Story Building Likely to Be Erected in Place of Landmark at Twenty-third Street and Sixth Avenue.

TRUSTEES TAKE ACTION.

Meeting Held in Utica and Architect Is Instructed to Draw Plans for Structure to Take Place of Famous Temple.

The old Masonic Temple at Twenty-third street and Sixth avenue, which for more than a generation has been a landmark in New York, is to come down. It will give way to a skyscraper twenty stories high, and in the future the Masonic fraternity of New York will have a home of which it may well be proud. Standing upon the same site as the present home of Masonry, it will be rich with associations and memories and

will be more like a renovated home than a new place.

The present temple, which was a thing of beauty when erected, and which at the time met all the needs of the craft in the city, is a four-story structure. Into its portals for years have gone many men high in Masonry and prominent in the history of the State and nation. Now, however, it is inadequate to the needs of the order and must give way.

The trustees of the Masonic Home and Asylum Fund, with full power from the Grand Lodge, met in Utica yesterday and practically decided upon building a new temple. Incidentally, the temple to be built will increase the revenues of the Grand Lodge. The present building, which is used mainly for lodge purposes in the upper floors, brings rentals to the amount of \$200 a year. Half of this sum is net profit.

It is the belief of the majority of the trustees that the present building should come down and in its place should be erected a steel structure. As at present the lower floor may be used for a bank, the Grand Lodge at present using that floor and paying a rental of \$200.00. The upper floors can be cut into lodge rooms and offices, from which a great revenue may be derived.

This plan has not been formally approved, but matters have progressed so far that the replacing of the old structure with a new one is considered a certainty. An architect has been instructed to

draw plans and submit estimates to the trustees. When this has been done the trustees will meet and take final action.

DR. POWERS FOUGHT HIS RESIGNATION.

General Secretary of Episcopal Missionary Society Asked for Charges Against Him.

The resignation of the Rev. Dr. W. Dudley Powers as General Secretary of the American Church Missionary Society of the Episcopal Church has been accepted by the Executive Committee and Eugene M. Camp has been elected to fill the vacancy. Although it is admitted that Dr. Powers was practically forced to resign none will discuss the reasons.

At the last regular meeting of the Executive Committee a resolution was passed setting forth that the resignation of the General Secretary was for the good of the society. Dr. Powers was surprised by the action and asked that some charges be made.

A week later the committee met again and accepted Dr. Powers's resignation. No comment was made and all concerned refused to tell the reason that led up to his resignation. He is a nephew of Bishop Thomas W. Dudley, of Kentucky.

True and Unfailing Health for Suffering Women.

Paine's Celery Compound The World's Medicine for the Cure of Female Troubles.

A large share of the evils and sufferings which women are liable to result from special female weaknesses and diseases. From the girl entering womanhood to the woman who arrives at the Grand Climacteric, or "Change of Life," there are troubles, ailments and irregularities—too often borne in silence—which undermine the health and result in disease. Where such conditions exist, Heaven help the poor sufferers to fully realize their peril and dangers! It is well known that ordinary medical treatment too often fails to build up the delicate nervous system of woman and give necessary tone and strength to the important female organs. The experience of years, medical testimony and letters from tens of thousands of cured women point to Paine's Celery Compound as woman's friend and life-giver. Mrs. W. L. West, Fremont, Neb., writes thus: "I used Paine's Celery Compound for female troubles and general debility. I have taken a great deal of medicine during the last ten years, but none of them of such value as Paine's Celery Compound. I believe it is the best medicine for the nerves and the troubles from which women suffer so much that I ever used."

on Page 5 To-Day.

The Last Friday of 1903's First Half. And a Day of Extraordinary Value Giving.

There is hardly a department in the store but what is represented in this advertisement. And, let it be thoroughly understood—if an item creeps into this Friday store news—it must be underpriced.

It is the last Friday in June—the last Friday of our store year's first half. We want to make it a record breaker, and add to the grand total of a splendid half-year's business.

Some goods are clear-ups from our regular stock. Others are from makers and importers winding up a season, when price is a secondary consideration.

All in all—the news is resplendent with saving propositions to the economically inclined, and should be read with a deal of interest.
